

# Omni Environmental, Inc.

## STATEMENT OF QUALIFICATIONS

### INTRODUCTION

Omni Environmental provides analytical services in support of the asbestos related management activities of our clients. Our **Asbestos Polarized Light Microscopy (PLM)** laboratory is licensed by the Texas Department of State Health Services and accredited by the **National Voluntary Laboratory Accreditation Program (NVLAP)** for satisfactory compliance with criteria set forth in ISO/IEC 17025 for bulk sample analysis of materials for asbestos. Our clients include environmental and engineering consulting firms, universities and school districts as well as state and city governments.

### SERVICES

#### Asbestos Microscopy

Omni Environmental's Asbestos Microscopy Laboratory provides identification, optical characterization and quantification of Asbestos, Non-Asbestos Respirable fibers and Non-Fibrous Components of insulation and building materials, raw materials and manufactured products, dust, soil and various other sample matrices. Our **combined experience of over 30 years in asbestos analysis** as well as our state-of-the art proprietary computerized Asbestos Laboratory Data Manager allows us to provide the **fastest available turnaround time on projects of any size** backed up by one of the industry's most rigorous quality assurance programs.

### FACILITIES

The Omni Environmental, Inc. office/lab complex is a 2600 square foot facility which includes laboratory space dedicated to the analysis of asbestos in insulation and building materials.

Major equipment includes a Nikon and Olympus Polarized Light Microscope equipped with 10X, 20X, 40X and 60X objectives as well as a 10X dispersion staining objective. The lab also uses Nikon SMZ-1 stereomicroscopes inside HEPA filtered negative air hoods.

### KEY PERSONNEL

- **Steve Griffin, President** – Mr. Griffin is the Asbestos Microscopy laboratory manager. He has over twenty years of experience in analyzing materials for asbestos.
- **Linda Griffin, Vice President** – Ms. Griffin is responsible for coordinating the sample flow in the laboratory and ensuring samples are received and logged into the database in accordance with the lab's Quality Assurance Program. Responsible for communicating customer deadlines to the laboratory analysts.
- **Monika M. Enriquez – Senior Asbestos Analyst** – Ms. Enriquez is responsible for the analysis of building material and environmental samples for asbestos as well as all aspects of the PLM laboratory's QA/QC program. She has nearly 10 years of experience in analyzing material for asbestos.
- **Linda Griffin, Owner** – Ms. Griffin is the Laboratory Sample Coordinator.

### BUSINESS INFORMATION

**State and Date of Incorporation:**  
Texas, May 1993

Address:  
8900 Shoal Creek Blvd Suite 121  
Austin, TX 78757
